

# Quelles sont les énergies disponibles sur terre ?

les énergies .....

The diagram shows a cross-section of the Earth's surface and subsurface. On the surface, there is a sun, wind turbines, a forest, a house, and a hydroelectric dam. Below the surface, there are geothermal wells tapping into hot underground reservoirs. Callout boxes point to these various energy sources.

les énergies .....

The diagram shows a cross-section of the Earth's surface and subsurface. On the surface, there is an oil refinery, a coal mine, and a gas well. Below the surface, there are oil wells and gas wells tapping into underground reservoirs. Callout boxes point to these various energy sources.

Que signifie le mot : renouvelable ?

Que signifie le mot : fossile (non renouvelable) ?
